
Contracts, Guarantees, Warranties...

Let Safinah Group's expertise in the technical aspects of contracts, guarantees, warranties and other commercial documentation help minimise your risk and liability, protect your investment and avoid unnecessary legal costs.

Safinah Group can offer advice and services for contracts, guarantees, warranties and other commercial documentation. Our team has extensive, real life, commercial experience and expertise.

The wording of contracts and guarantees should be reviewed in advance to ensure that the technical aspects and requirements are relevant to the project and suitable for their intended purposes. A thorough review of relevant documentation helps manage any potential future claims.

Our services include:

- Pre-project commercial assessment
- Review of the technical aspects of contracts, guarantees and warranties/review
- Liability and risk assessment
- Support when things go wrong

Safinah Group believes that it is essential to review the commercial elements of any project at the beginning to ensure your interests are protected and your investment is secure.
