Specifications and guidance on newbuild projects and future maintenance of the world's largest mega yachts

Yacht Coatings Sector

Safinah Group's team of experts provides coating specifications and guidance on newbuild projects and future maintenance of the world's largest mega yachts. Our specialist consultants are also regularly engaged as expert witnesses in legal cases, both in Europe and the United States.

Knowledge

Safinah Group has more than 150 years of experience in yacht chemistry and structure at its finger tips ensuring that any decisions or conclusions reached are based on a sound foundation of knowledge. We have the ability to evaluate technically any coated area of a yacht be that underwater, above water, in tanks or in general technical spaces.

Collaboration

Safinah Group has been jointly appointed by yard and owner on the projects to ensure the smooth and satisfactory outcome for the coating work on megayachts.

We have been appointed to act as independent arbitrator during coating disputes and have succeeded in achieving an acceptable agreement for both parties.

Working with yacht builders Safinah Group can improve output by better integration of the coating process with other construction activities.

Talk to one of our coatings experts today on +44 1670 519 900 or email the team at yacht@safinah-group.com
